Vendor Categories and Descriptions:

**Agricultural Products (Produce, meats, fish)**
This category includes fresh vegetables, fruit, cut flowers, herbs, nursery and bedding plants, honey, eggs, meats and fish grown/raised in **Wisconsin, Illinois, Indiana, Iowa, Michigan and Minnesota**. Kenosha Common Markets, Inc. promotes and encourages farm direct and sustainable agriculture practices and methods. The only exception to this rule is foods that can't be grown/raised in these six states. Example: bananas, ocean fish. *(This category requires acceptance of our $2 wooden SNAP (EBT) tokens from customers if applicable. To participate, read more about this program in the separate document on our website.)*

**Art & Craft (Not Self-Crafted)**
This category is for anyone selling art/craft goods that were created by someone else, thus considered a dealer or re-seller. Photographs showing artwork must be sent with application.

**Art & Craft (Self-Crafted)**
This category may only be used by artists who self-craft all of the items in their booth. If more than one artist's work is displayed, each artist must be present in the booth throughout the day. Types of art work include paintings, photographs, sculpture, jewelry, etc. Photographs showing artwork must be sent with application.

**Food (Prepared)**
This category includes food prepared on-site or in commercial kitchens for immediate consumption or take-out at the market. A limited number of vendors will be permitted per processed food type to maximize sales for each vendor.

**Food (Processed)**
This category includes food processed off-site that is meant to be consumed outside of HarborMarket. Examples: bread, cheese, jams/jellies, other canned goods, baked goods, etc. *(This category may accept our $2 wood SNAP (EBT) tokens from customers. To participate, read more about this program in a separate document.)*

**Service**
This category is only for vendors who provide a service ON-SITE AT THE MARKET. Examples include: knife sharpening, tailoring, spine screening. Submit a detailed written description of the service(s) that will be performed while at the Market, with photos, as appropriate.

The Service category does NOT include as a primary vending objective the solicitation/marketing of one's business, nor sales of items for offsite use such as subscriptions, memberships or tickets. If you are unsure if a particular vending fits the Service category, please submit a detailed written description of the service(s) and photos, as appropriate. Vending that does not fit the category of Service may fit under the category of Sponsorship.

**Perishable/Non-Edible Products**
This category is for perishable/non-edible products such as handmade soaps, candles. Photographs showing the product must be sent with application.

**Multi-Category Vendors**
If a vendor wishes to sell items relating to more than one category, the vendor should fill out the
application form, noting both categories and that this will be a shared stall. The vendor will pay only one fee, the higher of the two fees. Any restrictions relating to either of the categories will still apply.

Charities and Fund Raising
Nonprofit organizations may participate at Kenosha HarborMarket three times for free. All organizations, and their Market day's activities, must be pre-approved by the Market management. In general, the sale or give away of food and beverage products is not allowed, because nonprofits vending in a free booth may not compete with the products of paying vendors. Click here to read more about Nonprofit Rules & Guidelines.

Clubs and Troops
Unfortunately, we cannot accommodate the hundreds of individual youth groups, clubs and troops who wish to fundraise at Kenosha HarborMarket. A group, club, or troop may participate only if it submits with their application an official letter from the school's principal or the regional troop manager authorizing it as the only group representing the entire school or organization that year. In general, clubs/troops may not sell or give away food and beverage products.

Sponsorship
This category is for businesses like healthcare professionals who are not performing a service ON-SITE at the Market, subscription sellers (newspapers, retail memberships,) realtors/housing (apartments, condos,) construction trades (builders, remodeling companies) whose presence at HarborMarket is solely to market their business. A vendor booth at the Market is the base option for the Sponsorship category. There are additional marketing opportunities these businesses may be interested in such as marquees in our musician's tents, listing/logo on our website, and more. For these additional opportunities and the associated fees, please discuss Sponsorship with our Board President or Secretary.

All vendors must apply every year – previous participation does not guarantee acceptance to the current year. Participation is not open to groups whose primary focus is political or religious.

We do not accept any multi-level marketing (MLM) businesses.

ALL vendors must carry a $1-million certificate of liability insurance policy that names Kenosha Common Markets, Inc. as additional insured.
